NEED OF SUCH TYPES OF WORKSHOPS

As we run the college in hilly and tribal area, pursuing a degree is not enough. Maximum students are from very poor economical background. Many students leave their education in middle due to economic problems. Entrepreneurship Development Cell is working in the field of self employment. Such types of workshop can provide an opportunity to the student for their better future. ED cell is planning for the commercial production of these types of lamps. We will provide all the facilities and kits to the students and they will manufacture the lamps. These lamps will be purchased by the cell and will be sold through its outlets. This will provide some financial help to the students and they can earn while learn.
