NEED OF SUCH TYPES OF WORKSHOPS

As we run the college in hilly and tribal area, pursuing a degree is not enough. Maximum students are from very poor economical background. Many students leave their education in middle due to economic problems. Entrepreneurship Development Cell is working in the field of self employment. Such types of workshop can provide an opportunity to the student for their better future. ED cell is planning for the commercial production of these types of lamps. We will provide all the facilities and kits to the students and they will manufacture the lamps. These lamps will be purchased by the cell and will be sold through its outlets. This will provide some financial help to the students and they can earn while learn.

This system provides a collection of methods and shortcuts for solving mathematical problems more efficiently and intuitively.

In academic year 2023-2024, department of Mathematics has conducted "*Certificate course in Vedic Mathematics*" in collaboration with Internal Quality assurance Cell (IQAC). The course syllabus of said certificate course was designed by faculties of the department as per need of course which includes basic level of Vedic mathematics with the prior permission and guidance of principal of our college. It consist the following topics as,

1. How to find the date of birth of any person?
2. How to predict person's pocket money?
3. Simple methods of multiplication,
4. Criss-cross system of multiplication,
5. Squaring of numbers,
6. Cube roots of perfect cubes and square roots of perfect square.

The course was conducted in the during the period 28/03/2024 to 04/04/2024 (total 6 days except holidays), Three hours to each working days and two hours for practice (Total 5 hours in a day i.e. 30 Hrs in a week). Conservation of Medicinal plants

2023-24

Department of Botany

- **Period** : 2023-2024
- **Venue** : Ethnobotanical garden,
Art's, Sci. &Commerce College Chikhaldara
- **Objectives** :
 1. **Identification of plants**
 2. **To collect medicinally used plants data.**
 3. **To know current status of plants**
 4. **To conserve the plants in ex-situ manner.**
 5. **To propagate plants naturally.**
- **Brief Report** :

Regarding our objectives we considered that the medicinal plants have long been integral to human health, providing raw materials for pharmaceuticals, traditional remedies, and nutritional supplements. However, rapid deforestation, habitat destruction, overharvesting, and climate change are threatening the existence of many plant species that are vital for medicine. The information of the plants is printed in the form of syllabus for college students. **The Sant Gadge Baba Amravati University** affiliated Colleges students of Botany, Ayurveda College students, as well as Forest department.

Local Melghat tribal people have knowledge of these medicinal plants. During the visits students get knowledge and collect data about how tribal people use these medicinal plants for the cure of their diseases.

Today many medicinal plants face extinction but detail information is lacking, so it is important to conserve and preserve the medicinal plants. To propagate and conservation such medicinal plants, in ex-situ manner in our botanical garden of ethnobotany, in program 40 Students were participated. Melghat Forest is tropical, dry, deciduous type forest. The soil and climate of **Chikhaldara plateau** is suitable for

medicinal plants. According our programme objectives we have taken step; Conserved some medicinal plants statistics are:

Medicinal plants : 51 genera
Aromatic plants : 05
Grasses : 05
Aquatic : 02
Tuberous : 10
Rhizomatous : 05
Others : 10
