चांदूर रेलवे - एक तरफ नागरिकों को भारी भीड़, दूसरी तरफ खाना बनाने की तैयारी चल रही है, कुछ देर बाद लोगों की पंगत भी बैठ गई और खाना शुरू हो गया... ऐसा आयोजन किसी शादी या प्रोग्राम का नहीं था, बल्की यह था चांदूर रेलवे नगर परिषद में आम आदमी पार्टी का डेरा आंदोलन। प्रधानमंत्री घरकुल आवास योजना के तीसरे चरण की निधी के लिए आम आदमी पार्टी के नेतृत्व में लाभार्थियों ने चांदूर रेलवे नगर परिषद में डेरा आंदोलन किया। इस आंदोलन के दौरान चांदूर रेलवे न.प. के इतिहास में पहली बार आंदोलनकारियों ने खाना पकाने के चूल्हे जलाया था और पंगत में खाना भी खिलाया. इसलिए चांदूर रेलवे शहर में अनोखा आंदोलन देखने को मिला। इस आंदोलन का नेतृत्व आम आदमी पार्टी के पश्चिम विदर्भ संगठन मंत्री नितिन गवली और पूर्व नगर पालीका सभापती महमूद हुसैन ने किया।

Title of the Activity: Plastic Free Environment
Date / period: 13th May 2022.
Objectives of program: To aware about plastic pollution
Reuse of plastic bottles
Making our environment an eco-friendly zone

Reference: MAHARASHTRA NON-BIODEGRADABLE GARBAGE (CONTROL) Act, 2006.
No. Plastic-2022/C.R.104/TC-1.— Notification, 2018 dated 23rd March, 2018,

Brief Report:

Plastics do not undergo degradation, stays in the soil for many years, which affects soil fertility and degrades the soil quality. When plastic enters the drainage and sewerage system, they block the pipes and the drains causing waterlogging. The improperly disposed of food bags, when eaten by animals, cause stomach and intestine related diseases which even lead to suffocation and death. Plastic items find their way to the river and other water bodies, which are then swallowed by fish, seabirds, and other marine species. The waste from the plastic manufacturing industry is thrown directly into the water bodies, thus affecting the chemical property of water, causing hazards on a very large scale. Proper disposal and usage of plastic discards can reduce these problems. A set of regulations should necessarily be followed to stop these problems. There are primarily three ways of managing plastics: • Reduce • Reuse • Recycle.

In March 2018, Maharashtra outlawed all types of plastic bags, regardless of thickness (with or without handles), nonwoven polypropylene bags, single-use plastic items.

In the academic session 2021-22 Department of chemistry organized Extension Activity program, in which we aware our students about plastic pollution and asked them about reuse of plastic bottles for plantation. The duration of this activity was three months. Students planted the sapling in plastic bottle, observe them by taking care and after growned they submitted it. The program conducted on 13th May 2022 under the presidency of Honble Principal Dr. R. S. Jaipurkar. Dr. U. S. Wasnik in her speech gave brief introduction about the Extension activity of the department. Dr. R. S. Jaipurkar sir addressed the students and insist students to avoid use of single use plastic. The program anchored by Mr.R.P. Rahate and ended it to vote of thanks. Dr. D.S. Hedao and students of Chemistry were present for the program.

CHAPTER III

STUDY OF CO₂ EMISSION REDUCTION

The College has yet to install Roof Top Solar PV Plant. Therefore as on the Date, the usage of Alternate Energy is nil.

CHAPTER IV STUDY OF INDOOR AIR QUALITY

4.1 Importance of Air Quality:

Air: The common name given to the atmospheric gases used in breathing and photosynthesis.

By volume, Dry Air contains 78.09% Nitrogen, 20.95% Oxygen, 0.93% Argon, 0.039% carbon dioxide, and small amounts of other gases.

On average, a person inhales about **14,000 liters** of air every day. Therefore, poor air quality may affect the quality of life now and for future generations by affecting the health, the environment, the economy and the city's livability.

Rapid urbanization and industrialization has added other elements/compounds to the pure air and thus caused the increase in pollution. In order to prevent, control and abate air pollution, the Air (Prevention and Control of Pollution) Act was enacted in 1981.

Air quality is a measure of the suitability of air for breathing by people, plants and animals.

According to Section 2(b) of Air (Prevention and control of pollution) Act, 1981 'air pollution' has been defined as 'the presence in the atmosphere of any air pollutant.'

As per Section 2(a) of Air (Prevention and control of pollution) Act, 1981 'air pollutant' has been defined as 'any solid, liquid or gaseous substance [(including noise)] present in the atmosphere in such concentration as may be or tend to be injurious to human beings or other living creatures or plants or property or environment

4.2 Air Quality Index:

An **Air Quality Index (AQI)** is a number used by government agencies to measure the **air pollution** levels and communicate it to the population. As the AQI increases, it means that a large percentage of the population will experience severe adverse health effects. The measurement of the **AQI** requires an **air monitor** and an **air pollutant** concentration over a specified **averaging period**.

We present herewith following important Parameters.

1. AQI- Air Quality Index
2. PM-2.5- Particulate Matter of Size 2.5 micron
3. PM-10- Particulate Matter of Size 10 micron
