Trainees prepares the court for activity/Sports event

The training center is running relentlessly nonstop continuously for the benefit of tribal and rural local students from last 15 years. Senior players are rendering their services by coaching to the budding players. Many practice drills are being conducted to improve the performance of the players and their fitness level. Practice matches also conducted at regular interval to hone the player's skill and to create actual matches situation. All the trainees take active part in college sports activities to make the event successful.

Grasses Seeds Broadcasting process / technique

Grasses seeds are very tiny / minute in size generally collected in December to February in each year. The seed dispersal take place by air/ wind.

Grass Seeds of *Dicanthium annulatum*

Stored collected grasses seeds

- Take soil in container and add few quantity of suitable seeds in container.
- 250gm seeds in 2 kg soil with clay texture.
- Add few drops of water by hands to prepare the moist mixture.
- Shake the pot by two hands for 5 minutes to prepare grasses seeds ball of suitable size.

Grasses seed balls

- You can simply add the punch of grass seeds in loose soil by covering after adding soil.
- The seed balls are used in older grassland but degraded by weeds.
- Simple punch of grasses seeds in open loose / fertile soil with good clay and moisture.
- Demarcate the soil area where grass seeds are added to observe the rate of seed germination after 17 days by good shower of rains.

Germinated grasses seeds after 17 days

- Grasses seeds to be broadcasted in last week of May or first week of June, as per rainfall pattern of forest area and climate.
- For wild legumes seeds no need of seed ball simply throw seeds 200 gms in ½ hectares or 500gms per hectare with grasses mixture to get positive association.

Wild Legumes seeds

- After one month the results will be as under.
- Monitor the seed germination results regularly and take photograph of each and every step and maintain the record in grasslands management register. □

Re: Letter of appreciation

On behalf of Telangana State Forest Department, I place on record the appreciation to Prof. G.D. Muralkar for the invaluable contribution made by him towards improvement of grassland management practices in both Protected Areas and outside Protected Areas in Telangana State during last one year. During the said period, he has several times visited several and Royal Tiger Reserves and different Sanctuaries & National Parks and conducted field training and workshops involving forest officers from the cadre of Forest Dept Officers to Conservator of Forests / Field Directors on the grassland management, Wild square identification, grass seed collection and seed eradication. Because of his involvement, visible change has been noticed in the different grasslands spread over the Protected Areas and Reserve Forests and we express our gratitude and acknowledge the services rendered by him.

Re: Appreciation of Services Rendered in Grassland Management in the Kanha TR.

This is with great pleasure that I acknowledge and immensely appreciate your technical guidance for the development of grasslands in the Kanha Tiger Reserve. An eminent agronomist of central India, you have been visiting Kanha Tiger Reserve to share your experience of grassland management with officers/ staff of the tiger reserve, and to train them in the survey and improvement of this important habitat type upon which depends a huge population of ungulates of different species.

Your recent visits, in September and November, 2016, to the protected area and interaction with Kanha management have considerably added to our understanding of the management of grassland habitat. I hope that in future also you will lend us this tremendous support for the cause of wildlife conservation in the tiger reserve.

To,
Prof. G.D. Muratkar,
Head of Dept. Environmental Science,
Arts, Science & Commerce College, Chikaldhara,
Amravati,
Maharashtra-444807

Sir,

Sub: Appreciation for grassland improvement work in protected areas of Karnataka State.

This is to acknowledge with gratitude your immense contribution to the capacity building of our field as well as supervisory staff of the many protected areas for management and improvement of the grass lands.

The grasslands are an important component of the food pyramid of the PAs. Therefore, personally I feel that the increase in tiger numbers in B.R.T, Nagarhole & Dandeli in Karnataka in recent years can be attributed partly to your efforts.

I have no words to thank you for taking out your time to visit not only Tiger Reserves but also the lesser known sanctuaries and national park of the State multiple times in a year to train the staff and follow up on their progress on the ground. It has helped the staff in identification of palatable grasses and timely eradication of weeds, thereby constantly improving the quality of the grass lands. The training manual prepared by you will go a long way in further improving their capacity.

Once again we are grateful to you for your efforts and time and hope that you will continue to be associated with our protected areas in future also.

Yours faithfully,

Principal Chief Conservator of Forests
(Wildlife) Bangalore.

EXTENSION

Memorandum of Understanding

Memorandum of Understanding in Between Field Director and Chief Conservator of Forests Melghat Tiger Reserve , Amravati And Principal Arts , Science & Commerce College , Chikhaldara Talq. Chikhaldara , Dist Amravati 444807

Being Party of the First Part : Field Director and Chief Conservator of Forests Melghat Tiger Reserve , Amravati

Being Party of the Second Part : Principal Arts , Science & Commerce College , Chikhaldara Talq. Chikhaldara , Dist Amravati Where as Signa Shikshan Prasarak Mandal , a public trust duly registered under the provision of Bombay Public Trust Act , 1950 , is running the Arts , Science and Comm. College Chikhaldara offers various courses in Arts , Commerce and Science streams for the students and also has expert faculties working in the college for imparting education to the students. And Where AS Chikhaldara comes under the Melghat tribal region , which is mainly a forest area having rich biodiversity. The Party of the First Part requires the Honorary Consultation Services and Scientific , Technical support from the Department of Environmental Science and Botany in the field of 1) identification of Grasses of Melghat Tiger Reserve , 2) Classification of grasses in to Palatable and Non Palatable. 3) Weeds identification 4) Wild leguminous plants identification 5) Grasses Seeds Collection .6) Grassland Management Practices for the herbivores 7) Preparation of Action Plan for Grassland Management. And Where As Prof. G. D. Muraskar , Head Dept. of Environmental Science of the college offered his selfless valuable consultation services and technical support in grassland management practices for the relocated sites of the Melghat Tiger Reserve from the year 2012-13 to current period of the year 2016-17. The Field Director and Chief Conservator of the Melghat Tiger Reserve , Amravati requested to provide the expertise services of Prof. G. D. Muraskar on honorary basis. And Where As looking to the nature of work and its benefit to the forest and grassland ecosystem , food chain for herbivores and carnivores in general the Principal , Arts , Science & Commerce College , Chikhaldara accepted the request of the Hon.ble Field Director and Chief Conservator of Melghat Tiger Reserve.

Prof. G. D. Muraskar and his team will carry out the following training programmes for the field staff of the Melghat Tiger Reserve in the suitable season specially in Sunday , Holidays and vacations without any remuneration.

- 1) Grasses identification. 2) Weeds identification 3) Wild Leguminous plants identification 4) Seeds collection , storage and broadcasting 5) Enrichment of grasslands 6) Field workshop for field staff 7) Ecological Impact Assessment of Relocated Villages sites of MTR.
